Panasonic ideas for life

Straight hair that lasts longer than you do.

Experience **50% Extra** longer lasting straight hair.

The Panasonic Ion Straightener is the world's first hair straightener that emits platinum negative ions, coating each strand of hair with a water-resistant layer that deters moisture absorption, sustaining the straightness of your hair. This technology, patented by Panasonic, keeps your hair luscious and straight longer, lasting all day, even if you can't.

Find out more at www.panasonic.com.sg/beautycare

Benefits of platinum negative ion conditioning on hair
